

## WHAT YOU'RE MAKING!

Today's quick activity craft is an Wind Chimes!

## WHAT YOU'LL NEED!

- Two sizes of clay pots (make sure they have a hole in the bottom!)
- Paint
- String
- Wooden beads

## STEP 1

Paint your two clay pots! Be creative.

## STEP 2

Get your parent's help with this one! Tie a wooden bead to the bottom of your string. Then, position the smaller clay pot just high enough that the wooden bead knocks into the side of it. Tie it in position. If you need to, tie a wooden bead just underneath to keep it in place.

## STEP 3

Position the larger clay pot so the smaller one peaks out from underneath it. This is where the chiming comes from! Tie it there the same way as before.

## STEP 4

Tie three more wooden beads on top for decoration, and then make sure you make a loop so you can hang it up outside!
