

LICE PREVENTION POLICY

Updated: June 12, 2026

Lice can spread very quickly within the summer camp environment where many people are living together in such close proximity. Our Lice Prevention Policy aims to minimize the risk for both our camper families and summer staff.

YOUR OPTIONS:

You have three options once lice is found. Please check one:

- Your child may stay at Camp, and we will treat their hair and belongings. A fee of \$285.00 per camper (HST included) applies for the products used and processing required. We do our best to ensure your child is lice-free, but we cannot guarantee full removal.
- You can take your child home to treat their hair and belongings. They may return to Camp as early as Monday morning, when we will re-check for lice. No compensation will be given for the time missed at camp.
- You can take your child home to treat their hair and belongings. You may re-register for another week at camp, pending availability, at no additional cost.

YOUR NEXT STEPS:

1. Check off one of the three options above.
2. Inform the director of your child's program which of the three options you would like to pursue by returning this sheet. The director will notify our Administrative Team at the Summer Office if additional payment or reimbursement is required.
3. Visit the Summer Office, located near the Girls Camp parking lot. If your child is staying the week, the office will process payment for the treatment and connect you with a staff member who will look after the camper's treatment. If you are taking your child home, the office will make the necessary adjustments to your account.

I have read and understand the Camp Mini-Yo-We Lice Prevention Policy and would like to take advantage of the option I have marked above.

Camper's Name: _____

Parent/Guardian Name: _____

Parent/Guardian Signature: _____

Date: _____
